

SMARTER AI SURVEILLANCE

Eurovision AI

6 Sense Technology

Advanced AI-Powered Video Analytics for Proactive Security

Intelligent • Accurate • Proactive

What is AI 6 Sense?

**Proactive Security
Not Just Recording**

Unlike traditional CCTV systems that only record footage, AI 6 Sense analyzes human and vehicle behavior in real time to detect threats before they become incidents.

Real-Time Analysis

Detects threats as they develop, not after the fact

Minimal False Alarms

Intelligent filtering eliminates unnecessary alerts

24/7 Performance

Works in daylight, low light, and complete darkness

○ Eurovision have IPC Object Detection features

B1 Human detection

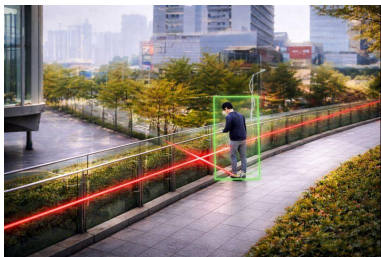

B2 Vehicle detection

B3 Pet detection

6 Intelligent Detection Capabilities

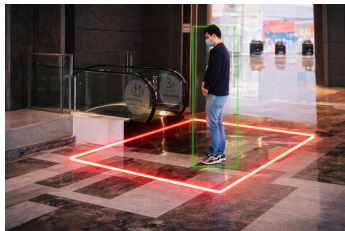

01

Line-Crossing

Triggers alerts when crossing a virtual boundary line

02

Loitering Detection

Identifies individuals staying unusually long in specific areas

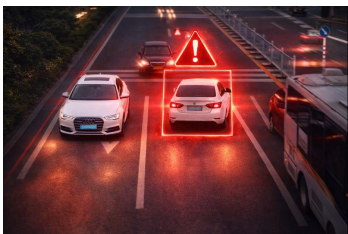

03

Staff Absence

Detects when personnel leave their designated work area

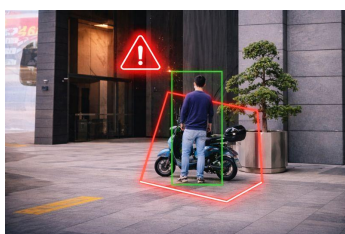

04

Vehicle Retrograde

Detects vehicles moving wrong direction against traffic flow

05

Area Intrusion

Detects unauthorized entry into restricted zones in real time

06

Illegal Parking

Identifies vehicles parked in unauthorized areas

01

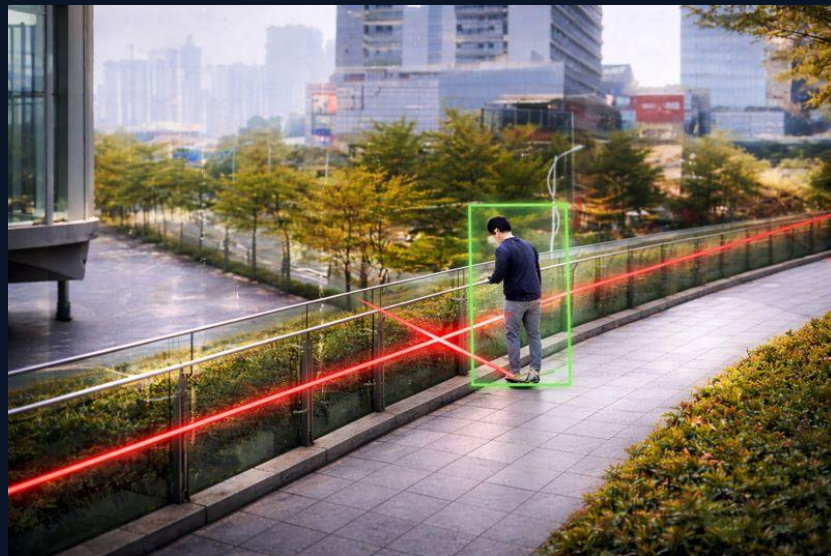

FEATURE

Line-Crossing Detection

Triggers instant alerts when a person or vehicle crosses a pre-defined virtual boundary line in any direction.

IDEAL FOR

- Restricted zones & perimeters
- Building entrances
- Industrial areas

LINE-CROSSING DETECTION

Eurovision AI 6 Sense

02

FEATURE

Loitering Detection

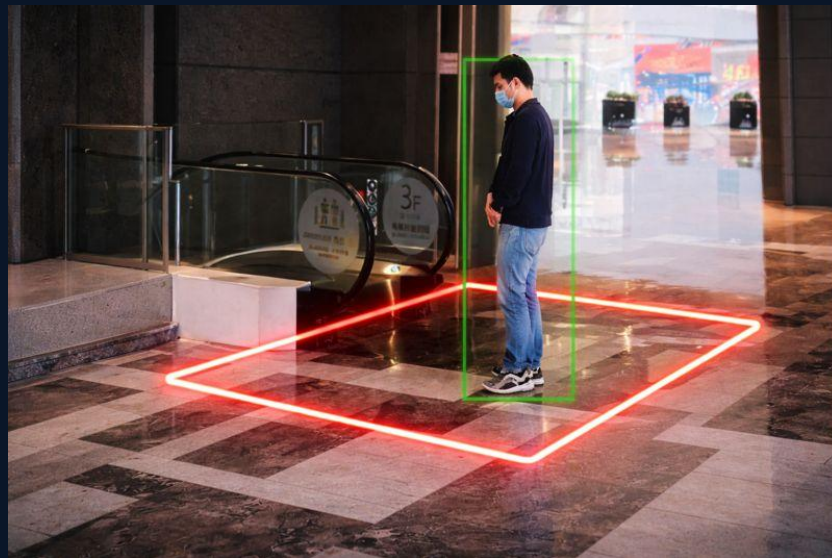

Identifies individuals who stay in a specific area for an unusually long time, enabling preemptive security intervention.

IDEAL FOR

Shopping malls & ATMs

Banks & office entrances

Public waiting areas

LOITERING DETECTION

Eurovision AI 6 Sense

03

FEATURE

Staff Absence Detection

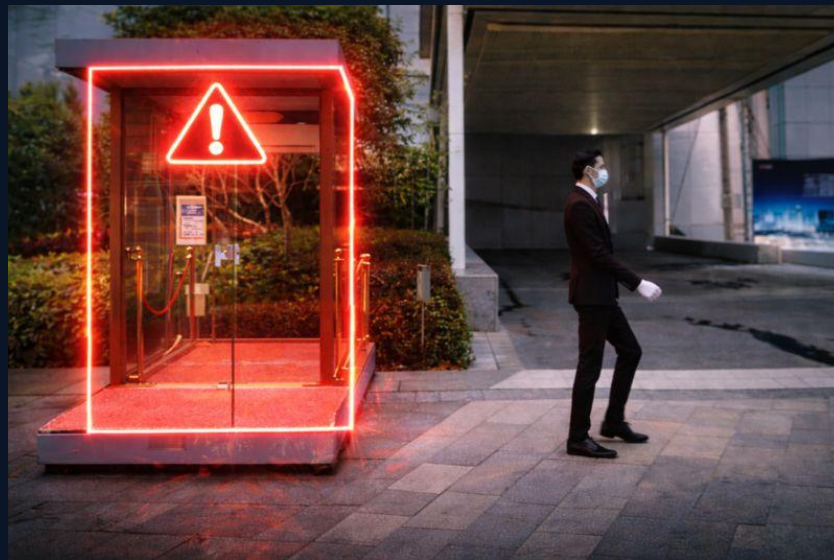

Detects when assigned personnel leave their designated work area unexpectedly, ensuring accountability and operational continuity.

IDEAL FOR

Security checkpoints

Reception desks & counters

Factory workstations

STAFF ABSENCE DETECTION

Eurovision AI 6 Sense

04

FEATURE

Vehicle Retrograde Detection

Detects vehicles moving in the wrong direction against traffic flow, preventing accidents and traffic violations in real time.

IDEAL FOR

One-way roads & parking exits

Highways & ramps

Traffic control zones

VEHICLE RETROGRADE DETECTION

Eurovision AI 6 Sense

05

FEATURE

Area Intrusion Detection

Detects unauthorized entry into restricted or protected zones in real time, triggering instant alerts to prevent security breaches.

IDEAL FOR

- Restricted areas & warehouses
- Factories & private properties
- Perimeter security zones

AREA INTRUSION DETECTION

Eurovision AI 6 Sense

Vehicle Illegal Parking

Automatically identifies vehicles parked in unauthorized or restricted areas, supporting traffic management and emergency access.

IDEAL FOR

No-parking zones

Emergency lanes

Commercial complexes & smart cities

VEHICLE ILLEGAL PARKING

Eurovision AI 6 Sense

Where AI 6 Sense Delivers Proactive Security

Homes

Intelligent threat detection

Offices

Workplace safety & access

Factories

Industrial security

Farms

Perimeter & monitoring

Commercial

Retail & business security

Smart Cities

Urban public safety

Key Advantages of Eurovision AI 6 Sense

High-Accuracy AI Detection

Precise identification of humans and vehicles with advanced algorithms

Reduced False Alarms

Intelligent filtering eliminates unnecessary alerts from animals and weather

Faster Incident Response

Real-time alerts enable immediate action and threat mitigation

Smart Scalable Solution

Grows with your needs from single locations to enterprise-wide deployment

Versatile Application

Suitable for residential, commercial, and industrial environments

24/7 Reliable Performance

Consistent operation day and night in all lighting conditions

Eurovision AI 6 Sense

Intelligent Security for a Safer World

Homes • Offices • Factories • Farms • Commercial • Smart Cities
