

EV-IVR-AI9064-4D

64 Channel 4K Intelligent Video Recorder

Key Features

- 64-Channel 4K Intelligent Video Recorder
- H.265+ Compression for Storage Savings
- HDMI & VGA Video Output
- Supports Up to 48TB Storage (4×12TB HDD)
- VMyCam Mobile App Support
- Reliable 24/7 Recording
- Perfect for Large-Scale Security Systems

Description

Eurovision EV-IVR-AI9064-4D is a 64 Channel 4K Intelligent Video Recorder designed for enterprise-level CCTV surveillance. Featuring advanced H.265+ compression, massive 48TB storage support, HDMI & VGA outputs, and VMyCam mobile app integration, it delivers stable 24/7 performance for large-scale and mission-critical security environments.

Model	EV-IVR-AI9064-4D
Basic Information	
Product Name	Intelligent Video Recorder (IVR)
Recorder Type	4K H.265+ Intelligent Video Recorder
Channel Capacity	64 Channel
Usage Type	Enterprise-Level CCTV Surveillance
Video Compression & Output	
Video Compression	H.265+
Compression Benefit	Maximized Storage Efficiency & Reduced Bandwidth Usage
Video Output	HDMI Output
Additional Output	VGA Output
Display Support	Control Room & Multi-Monitor Connectivity
Storage Support	
HDD Support	4 × SATA HDD
Max Capacity per HDD	Up to 12TB
Total Storage Capacity	Up to 48TB
Recording Type	Massive Long-Term Video Storage
Remote Viewing & System Management	
Mobile App	Vmycam
Remote Functions	Live View, Playback & System Management
Monitoring Method	Smartphone & Remote Control Access
Performance & Reliability	
Operating Mode	24/7 Continuous Recording
Performance	Stable & High-Load Operation
Surveillance Level	Enterprise & Large-Scale Monitoring
Application Areas	
Ideal For	Airports, Shopping Malls, Factories
Smart Infrastructure	Smart Cities & Large Campuses
Commercial Use	Large-Scale Commercial Security Systems
